

 **citifarm™**

BAR

**A FARM IN YOUR
BAR & JUICE BAR**

Adds value, looks great,
tastes even better...
functional food theatre

BY V-FARM

Bring the Citifarm into the bar and create a new dimension to the theatre of cocktail and smoothie making.

**Adds taste,
adds interaction,
adds value.**

The Citifarm looks great in any bar and creates a point of interest to engage customers, watching the theatre of picking fresh leaves from our range of specifically developed bar crops. It improves the taste of fresh aromatics, and minimises waste as it enables you to pick to order.

Serve turbocharged microgreen superfood juices or your best ever mojito with mint fresh from your Citifarm!

citifarm™ by V-Farm

At V-Farm we're all about growing the perfect crop. That's why we've spent so long developing the perfect system to keep those plants happy.

Introducing Citifarm, the app controlled vertical farm that allows you to grow fresh crops on site with little effort and low energy demand.

Our systems draw customers in and add a whole new layer of excitement and value, regardless of whether you're a supermarket, cocktail bar, restaurant or salad bar.

Grow and harvest what you require meaning little to no food waste. Reduced packaging, reduced food miles and zero pesticides.

Pre-programmed crops and colour coded grow modes make it very simple to use

Looks great under our custom LEDs

Quick access with pull-out drawers

Can be grown all year round

Easy to grow through our app. No soil, no repotting, just sow and press grow

Citifarm plugs into a standard 13 Amp wall socket and connects to your Wi-Fi.

We are looking for forward thinking, creative businesses to work with us. First production units will be ready for install in Summer 2020. These initial units will be sold at a reduced 'beta testing' price. Go to www.v-farm.co.uk/beta to order your units now.

Following initial install, we are aiming to offer units under a rental package that will include free installation and repairs, a monthly consumables package, bi-annual deep clean and access to all our tailored 'grow' recipes.
